Greatest Long Distance Men April 26 and 30-Fencing champion-In World Compete in the Marathon; Modern Pen-school athletic league days.

thalon Outside Olympic May 5 and 8-Panama Pacific Inter-Games.

Athletics at the Panama-Pacific International Exposition will be the chial school days, greatest ever held in the history of the world. The program which is being arranged by the exposition officials is the most gigantic ever attempted by an exposition, country, association or group. The total number of entries letic league and interscholastic chamwhich will be received and the number | pionships, of athletes who will compete will exceed by far the number of entries pionships, boxing, wrestling, track and which have been received for any intr- field. national meeting, not even excepting August 2 to 4-Panama-Pacific inthe famous Olympiads. The exposition ternational exposition cycling chamofficials predict that the number of entries received will be between eight

and ten thousand. At the convention of the Amateur Athletic union of the United States, geld in New York City during Novemher 1913, it was unanimously voted to award all of its national championships to the Panama-Pacific International Exposition. These championships are the blue ribbon events of the athletic

The international Olympic committee which controls all modert Olympiads, recognizes just what the Panama-Paciric International Exposition will do for sport throughout the world and has conferred upon the exposition the right to hold the modern Pentathlon, which is the first time that it has been awarded outside the Olympic games. For the first time America is to have

the Decathlon, one of the classic events that were the features of the Grecian and Swedish Olympic games. The famous Marathon race, which originated in Greece centuries ago, will be re-run, with the greatest long distance men in the world as competi-

The exposition will bring together. for the second time in the history of the United States, the strong men of the world, who will compete in the pionships. dumb-bell and weight-lifting contests. Every city in the United States that maintains play-ground activities, will be extended an invitation to send a team to demonstrate the type of work heing done for the boys of America. Representation is also expected from every public school athletic league in | the United States.

It is planned to devote a week to Irish sports and pastimes consisting of football, dancing, burling and athletics. Swedish gymnastics and athletics will probably be given a week, and it is ted that Germany will send to th exposition a team to give an exhibition of the German type of gymnastic work. Arrangements are now being made to have the German Turners exploit their type of mass work and exhibition drills, Special endeavors are now being

made through the secretary of war to have assigned to San Francisco for competition during army week detachments from each and every fort in the United States. It is planned to have "try-outs" in the different military sections of the country to select the most expert. The program for army week will be made up of drills, exhibitions and competitions.

During navy week it is planned to arrange international contests between the crews of foreign navies and our own. Just what the final program will consist of will depend upon the time of arrival and mobilization of the different battleships in the harbor.

The Young Men's Christian association is to be given a week to exploit its type of work and a week will probably be devoted to the Boy Scouts'

movements. A series of baseball games between all-star teams, to be selected by popular vote from the ranks of players in the National and American leagues, will be played in San Francisco during 1915. If the National baseball commission approves of same. The exposition Will back the proposition and formally announce the plans when

details are completed. The department of athletics has received many propositions in relation to holding professional competitions during the period of the Panama-Pacific international Exposition and in all probability many important national and international professional events will be held in boxing, wrestling, base-

ball, tug-a-war and marathon running, An idea of the magnitude of this undertaking may be gained when on considers the fact that it is proposed to have activities almost every day during the period of the exposition, which offens February 20 and closes

IN SPEEDY MOTOR BOAT CURTISS FAILS TO OVERTAKE AMERICA

Top, Glenn Curtiss in motor boat racing on Lake Keuka with Lieut. Porte in America; bottom, America in flight.

Glenn Curtis, builder of the ocean aero America, with which Lieut. Porte will attempt to fly across the Atlantic ocean about July 20, is following closely the tryouts the big whale-like ship of the air is receiving. In one of the photos Mr. Curtiss is seen in his speedy motor craft, following the America around Lake Keuka. So rapidly is the craft skimming through the water that one of the mechanicians of the Curtiss factory is seen holding down the stern of the vessel for fear she will leave the water entirely.
